Healthcare-innovations

Product Overview

Confronting Healthcare Communication Challenges

Staying current on innovations in healthcare is like trying to take a close-up photo of the horizon.

CT-Innovations Can Help

Our quest for the most innovative healthcare tools began in 1946 and we are always looking for something bigger and better on the horizon. On the back, we've listed the CT-Innovations partners that can solve your challenges. Zultys, NEC, Vertical, and Iwatsu offer outstanding voice and data solutions. West-Call and TekTone present state-of-art nurse call systems. Everyone knows that Sony assembles the finest line of IP security cameras. Accutech, Versus, Intelligent InSites, and Sonitor help you keep an eye on your patients, residents, and assets. AudioCodes provides HIPAA compliant call recording and GoldMine helps manage physician relationships. See how CT-Innovations views the future of healthcare communications.
